Now it comes to explaining 1952, the Berlin Wall, the Cold War, the H Bomb, and many other activities. As the face-off with the surviving Super Powers of WWII took place along the East and West Germany in Europe the satellites were important from an Aerospace perspective at least, and submarine bases, etc., as Dr Edward Teller father of the Atomic Bomb or H Bomb legend goes speculated submarines could carry a one megaton device and the total power of these weapons already astronomical was expanding beyond what Earth could survive.

A Cold war is preferable and on the remote I(from the United States in most ways) Island of Japan at Atsugi Air base and civilian airports under Col. Fletcher Prouty's command and with Jim Donegan there fighting in the Korean War and being a RECON pilot along with Lee Harvey Oswald tracking enemy craft and their own

in the Polar Route area from Russia and the Troops and Armed Divisions route from China and Russia into Korea was the Russians were moving into during the Korean War in 1952.

Spartacus text describing the scene depiction is this:

> In March I960, President Dwight Eisenhower of the United States approved a CIA plan to overthrow Castro. The plan involved a budget of $13 million to train "a paramilitary force outside Cuba for guerrilla action." The strategy was organized by Richard Bissell and Richard Helms. An estimated 400 CIA officers were employed full-time to carry out what became known as Operation Mongoose. Holt

later claimed that he worked on this project with figures such as Sam Giancana, Johnny Roselli, Edward Lansdale and William Harvey.

After the failed Bay of Pigs invasion Holt worked for Meyer Lansky in California. Meyer took over the Los Angeles Stamp and Stationary Company where Holt continued to produce illegal documents and false police badges. He also worked closely with Phillip A. Twombly, a former Executive Vice President of Coca Cola for their Caribbean operations. Twombly now owned a bank in Fullerton, California, which was used to distribute CIA funds for covert operations.

Chauncey Holt was born in Kentucky on 23rd October, 1921. When he was 19 he joined the United States Army Airforce (USAAF). The following year he was court-martialed and sent to the U.S. penitentiary barracks at Fort Leavenworth, Kansas, for attacking another soldier with a Springfield rifle.

Holt was released in June 1940 but deserted from the USAF after the attack on Pearl Harbor. He eventually returned to duty but in 1942 he traveled in a car from Fort Knox to Louisville. He was arrested and charged with taking the car without permission and was sentenced to 18 months in the Industrial Reformatory at Chillicott, Ohio. On his release he found work with the Bethelem-Fairfield Shipyard Company.

After the war Holt met Peter Licavoli, a leading figure in the Mafia in Detroit. Holt was sent to Florida where he worked for Meyer Lansky as an accountant and pilot. This included several trips to Cuba where Lansky had extensive business interests. Lansky also sent Holt to worked for the International Rescue Committee (IRC). This was a Central Intelligence Agency controlled organization that had been set up to distribute funds to organizations attempting to overthrow left-wing governments. During the time Holt was also involved in producing forged documents for the CIA and the Mafia.

Holt also became involved in what later become known as Executive Action (a plan to remove unfriendly foreign leaders from power). This including a coup d'état that overthrew the Guatemalan government of Jacobo Arbenz in 1954 after he introduced land reforms and nationalized the United Fruit Company. However, the main target of this operation was Fidel Castro who had established a socialist government in Cuba.

The picture is in 1963 or so, possibly 1962, I fail to research as I type here extemporaneously, is a group of PsyOps covert operators staging undercover Psychological Operations in view of the public.

The roles of the people are easy. Chauncey Marvin Holt (pilot to Meyers Lansky) is to the right, Lee Harvey Oswald (pilot Civil Air Patrol is there) George Reynolds is there (CIA assassinations operative) and his personal pilot and soldier of fortune is there with him Leroy Young. George Reynolds was the brother of Bob Reynolds, head of JM WAVE CIA overthrow team in Miami Florida.

Frank Belcher is there. He is the Banker who works for Phillip Twombly (CIA) a person like Clay Shaw who as a facet of doing business in the Caribbean (or Latin America) is privy to information about the foreign government officials they meet and work with, the local groups of workers and politicians, sentiments of foreign populations they encounter, business fronts that can be used to plant assets into foreign nations as employees of the front corporations, etc.,

Twobly as a CIA asset will use his own front corporations (no indications Cocacola directly) in Fullerton California and other locations to funnel funding to Murder Inc., and Casino and other mafia who can ALSO fly cargo planes into civil wars in other nations to tilt the battle TOWARDS the USA England desired outcomes.

Sometimes countries are destabilized perhaps by assassination leading to civil wars in a "strategy of tension" eliminating peace activists and putting in warring factions from EITHER SIDE such that when the war does break out the Western allegiance side will have overkill capabilities against Communist factions, that provided secretly by pilots like Chauncey Holt into countries while discussed as non US CIA flights.

In 1951 the Casinos and Gambling operation of Meyers Lanksy on Grace Ranch Tuscon Arizona became a CIA training and airplane modification facility funded through the CIA to Borb Reynolds then to George Reynolds then to Twombly then the Frank Belcher and then to Meyers Lansky and Chauncey Holt, the Lansky accountant (who kept all the records and are in the appendix of his book).

The USE of the money was this. The Fair Play For Cuba and Commie Party cards and fake badges and fake documents for CIA operations where used by Chauncey Marvin Holt under supervision from William King Harvey to create "Legends" (cover identities) the teams would operate under, such a team driving later from Tuscon to the Trainyard.

Most likely this is or had intended to be something like Operation Northwood. A commie sympathizer Oswlad "fires from the clock-tower" (book depository) towards JFK with a lousy rifle. He misses but Cuba is

blamed as threat to the USA. instead from the Train-yard someone DOES HIT JFK and Oswald is the patsy.

It is the Mob operating from the CIA PsyOps system under heavy control of General Edward Lansdale and General CD Douglas, both of whom Col FLether Prouty hates and blames and cites as the assassins identified in photos, Lansdale seen in the pictures the Hobos he does not name by name but as assassins, and CD Jackson media friends, I think in one place he does mention CD JACkSON OSS CIA as part of the plan, in other cases Prouty just mentions others in the press by name who are part of the cover-up and CIA friendly propaganda.

One of the British interests in this was out of wedlock bastard Windsor children allowed them to study their speech defect non-publicly and while doing so plant sleeper agents drawn from orphanages they were planted in for use around the world with their hidden identities explained to them in surrogate parents.

Some of these were drawn from Glorian Donegan DNA since she was one of these "bastard children." The trackablity of DNA now is a huge issue and cover-ups are being conducted of the why of the assasion of JFK who was against this though his father was a part of this.

Some of the later discovered roles (HSCA testimony based on findings from investigator Penn Jones Jr. was that Oswald was trying to buy cars very anonymously (at least one) by cash no names involved. ONe place he visited the sales person seems to have been assassinated (Penn Jones finding.) Holt will say in his book the Oldsmobile station wagon some of the CIA group traveld to the train yard to at Dealy Plaza was bought in a way it was untraceable. Lee Bowers in the two story trainyard booth did see the cars but he was assassinated as he talked to documentarian author producer Mark Lane, but records of Lee Bowers statements remain.

Lee Harvey Oswald tried to call North Carolian army intelligence and I think explain the Donegan and Astugi piece of this but the phone call was blocked and he was assassinated before being transferred from Earl Cabell's (Mayor of Dallas and brother of CHarles Cabell fired by JFK police jail into the County Jail.

Per Chauncey Holt they had a "clean" automobile that would not be traced back to them, an Oldsmobile station wagon. IT seems as part of that team Oswald was trying to buy cars, cash, that would not be traced back to him, he was trying not to use his name.

Here is known official corroborated all sides (car dealership, two employees, Holt, and others)

The Booth Train-yard Control Operator Who Saw Too Much

Lee Bowers saw some cars in the parking lot. He was Suspicious Death #4.

ANALYSIS OF REPORTS AND DATA BEARING ON CIRCUMSTANCES OF DEATH

OF TWENTY-ONE INDIVIDUALS CONNECTED WITH THE ASSASSINATION OF

The roles of the people are easy. Chauncey Marvin Holt (pilot to Meyers Lansky) is to the right, Lee Harvey Oswald (pilot Civil Air Patrol is there) George Reynolds is there (CIA assassinations operative) and his personal pilot and soldier of fortune is there with him Leroy Young. George Reynolds was the brother of Bob Reynolds, head of JM WAVE CIA overthrow team in Miami Florida. - Holt

In 1963 Holt received instructions from Twombly to provide false ID documents for Lee Harvey Oswald. These documents (in the names of Lee Harvey Oswald and Alek Hiddell) were delivered by a man called George Reynolds. In August, 1963, Twombly asked Holt to travel to New Orleans, where he met Oswald and Carlos Bringuier. A. (to a question) I called an agent by the name of Whitlock and told him the station wagon was in the Dealey Plaza parking lot and that there was a hide-a-key under the hood. I instructed him to pick up the vehicle, deliver the guns to Masen and call George Reynolds and tell him what happened. From the Holt autobiography

C:\Users\eddonegan\OneDrive\Documents\AlistBooks\Book Internals\GreatTreason\Oswald.html:312: Lee Bowers was a Revealor. He said some people came in with an Oldsmobile station wagon and some other vehicles, looked around a bit, were out of place, and the station wagon was left behind. He also saw some flashes of light and the hobos being arrested from the train cars. Mr Ball questioned them and per Holt may have been in the back pocket of the CIA and tied to events leading up to the assassination. Holt said he left the Oldsmobile station wagon behind, key under it, Bowers testified the place was on lockdown after the shooting and the operators of the Station Wagon could not get it out. - From the Holt autbiography

Q. Who was Frank Belcher, Sr.? A. Frank Belcher, Sr. was one of the most powerful lawyers in California. He was, at one time, president of the California bar. He was related to J. A. Belcher, another of the CIA's properties. I have already alluded to his wife, Ruth, and his relationship to George Reynolds. More importantly, he was the de facto partner of Joe Ball, another powerful lawyer. Belcher and Ball very often represented co-defendants in trials.

Since they were not actually partners they were able to avoid charges of conflict of interest. Belcher and Ball, along with John Wayne and Fred MacMurray owned a palatial house in Acapulco, which was used as a safe house for contract agents, card carrying agents and organized crime figures, such as Stacher, Lansky, Licavoli, Roselli, Giancana and others. Belcher was also a CIA asset. He and I maintained a joint back account at the Bank of America which served as a conduit for funds from many sources, legal and illegal.

"In August of 1963, acting on instructions of George Reynolds, who operated the Atchafalaya Labor Camp in Morgan City, Louisiana, Bud Belcher and I flew to New Orleans. Bud was the son of Frank Belcher, owner of Belcher Aircraft, a CIA proprietary interest. Bud and I were to give Lee Harvey Oswald material to distribute in his role with "Fair Play for Cuba." The pamphlets we printed at LASSCO were passed to Guy Bannister, but there was a well- publicized arrest of Oswald at this time and, to the best of my knowledge, the material was never distributed.

It was that secret airbase at Grace Ranch serviced by Ernie Dunlevie, Ray Rayn, and the Vegas Mob (sans Bugsy Segal who Holt helped hit when Segal was caught skimming by an unnamed accountant) that Holt and the CIA team worked out of with Robert Mahue and Howard Hughes building advanced aircraft to spec inside WWII surplus planes to be piloted by CIA contractor and USAF Pilots hiding as Latin American air force personnel. That according to C-Span book notes on Richard Bissle Jr. and Allen Dulles.

In the appendix of Chauncey Marvin Holt's book of his work as a Hobo and with the CIA overthrow team of Guatamala in 1954 with Leroy Young, Jack Youngblood, and others Holt goes into meetings he had in Palm Springs with Sam Gold (Giacanca) William King Harvey, and the Grace Ranch group running the secret CIA airbase the squad of assassins drove the station wagon from to Dallas and William King Harvey doing much of the organizing.

> In 1975 the CIA began to purge rogue contract agents, aka "cowboys" from its employ. Some were forced into retirement, while others like Chauncey Holt ended up in prison. On January 2, 1976, Holt had written a letter to his old CIA ally William King Harvey apprising him of his recent indictment by a federal grand jury. Harvey responded by saying he could only offer "token assistance." Harvey did offer to send Chauncey some CIA documents that were about to be declassified. These records proved that Holt worked for the Clandestine Operations of the Central Intelligence Agency.

Hunt-Interview.webp an image later on this page is St. John Hunt and his book about his mother killed on UAL 553. It would be simple to consider his mother's point of view. They wanted to remain silent but needed money to live on. So why not ask for the Cowbows of the CIA to get some retirement pay out of some oil or Nixon campaign fund? For Nixon Bush Rockefeller and others the matter was more dangerous. Indonesia, Guatemala, the press and Congress and formal investigations into the MK-Ulra program depended on more

than voluntary silence and payoffs. Risks like Dorothy needed to be eliminated completely lest they be subpoenaed, change their minds, etc,.

Chauncey Marvin Holt and others were the "Cowboys" of Grace Ranch in Tuscon, Arizona? Yes. In 1951 the gambling operation sold off the race horses used in Las Vegas and moved in the bone-yard surplus WW 2 planes the Pentagon was making available to them to use as post-war military surplus.

Holt and others will show up in ranch hand clothes but in fact Holt was a Hobo and circus performer as a child later earned a degree in art from a religious based university admission. Upon being discharged from Army Air Force training in WW 2 he after WW 2 was used by the CIA as a Pilot Engineer. As an engineer he worked with weapons and aircraft designers to refit the planes and test and paint them for use in Guatemala and elsewhere and flew them as well. Not horses but planes instead but the overalls may look just they same even when he posed as a Hobo driving from Grace Ranch to Dealey Plaza Texasa to be part of the JF assassination planned by William King Harvey, Sam Giancana, and others.

You can't find away to a avoid the troubling matter of Lee Bowers Jr. He was in what amounts to the Air Traffic Control Tower of an airport, but here for controlling ground traffic in a two story 4 window all structure who observed the Oldsmobile Station wagon the Holt say they (the assassins) bought and drove from the CIA weapons center at Grace Ranch (were silencers were built, custom jobs from a firearms company in Goleta California did work for them, they were machinists at Grace Ranch Tuscon Arizona too working to modify salvage bomber, fights, and light personal planes.

In 1951 the Casinos and Gambling operation of Meyers Lanksy on Grace Ranch Tuscon Arizona became a CIA training and airplane modification facility funded through the CIA to Bob Reynolds then to George Reynolds then to Twombly then the Frank Belcher and then to Meyers Lansky and Chauncey Holt, the Lansky accountant (who kept all the records and are in the appendix of his book).

Holt worked with Howard Hughes, Robert Mahue, and others (Ernie Dunlivi and Ray Ryan meeting the the Bermuda Dunes Airport the CIA renovated and Desert In in Palm Springs to plan out and work on assassinations. A secret CIA airbase was created in former horse ranch in Tuscon Arizona near a military surplus plane bone-yard the plane experts used (with help from Col Fletcher Prouty) to make into CIA assets for Guatemala, Cuba, Indonesia, and other operations. Ray Ryan was later killed in a bomb blast.

Grace Ranch Tuscon Arizona Peter Licovoli mob sold of breeding horses for racing and became CIA aircraft modifications, pilot training, and gun-running field for planes including large bombers and small single or two seater private jets or planes. [Holt auto-biography]

Self Potrait of a Scounrel

These [allies in CIA operations] included Frank Belcher, Joseph A. Ball who was later a senior counsel for the Warren Commission, as well as Goodwin Knight, Alfred Gitelson, and other influential partners in KG & Co.

"I operated five different proprietary interests including a documentation mill [Los Angeles Stamp and Stationary Company LASSCO], two fixed based operations for aircraft [one at Grace Ranch Arizona], a weapons modification plant, and a business management firm which disbursed contingency funds to contract agents and carried out money laundering operations. Frank Belcher and I had a joint bank account at the Bank of America in Burbank, California, that was used to launder contingency funds, pay contract agents ["cowboys"], and receive funds from those clients of the CIA fronts that availed themselves of our services.

Belcher was a relative of J.A. Belcher of Belcher Oil Company, another firm closely connected to the CIA. He was married to Ruth Reynolds, who was related to George Reynolds of Morgan City,

Louisiana, another asset, and Bob Reynolds, who was chief of station of JM/Wave, the huge CIA complex located on the campus of the University of Miami.

"Belcher and Ball were partners, along with actors John Wayne and Fred MacMurray, in a luxurious house in Acapulco, next to Las Brisas. It was used almost like a time share for the men and their friends. Among the 'friends' were CIA contract agents and organized crime figures such as Lansky, Licavoli, and Stacher, who went there for meetings. I never did learn if Wayne and MacMurray were aware of the meetings taking place. It was an investment that paid off for all concerned, and they may not have been aware of anything more than the appreciation in the property's value prior to the partners' selling it." Part 1: Current Intelligence Bulletin 28 February-30 June 1951
These reports focused on the ongoing Korean War and the steadily growing problem of Vietnam. The Soviets continued to isolate West Berlin and threaten Yugoslavia. The dominant issue covered during these months, however, was Iran's attempt to nationalize the Anglo-Iranian Oil Company, and the British efforts to resolve the situation.

Part 2: Current Intelligence Bulletin 1 July-30 December 1951
The primary focus of these reports continued to be the Korean War. Other highlights include the signing of the Japanese Peace Treaty, which formally ended World War II, and the expanding membership of the North Atlantic Treaty Organization. The fragile post-war order was rocked during this period by the assassinations of King Abdullah of Jordan and Prime Minister Ali Khan of Pakistan.

Part 3: Current Intelligence Bulletin 1 January-30 June 1952
The major issue covered in these reports remained the Korean War, characterized this period by stalemate on the battlefield and inconclusive ceasefire negotiations. Anticolonial sentiment continued to grow in French Indochina and began to become a significant factor in British Kenya. The United Kingdom received a new queen in February with the accession of Elizabeth II.

Part 4: Current Intelligence Bulletin 1 July-31 December 1952
The dominant issue covered in these reports continued to be the Korean War, which remained a stalemate. Anticolonial and nationalist movements, however, grew in intensity in the latter half of 1952. Of special note was the end of the Egyptian monarchy with the overthrow of King Farouk in July, and the violent outbreak of what became known as the Mau Mau Rebellion in British Kenya in October.

Part 5: Current Intelligence Bulletin 1 January-31 December 1953
There were significant changes in US and Soviet leadership in 1953, with the start of the Eisenhower administration in January and the death of Joseph Stalin in March. Coverage of the USSR dominated the reports for the year, including Soviet bomber and submarine production and increased threats to Eastern Europe. Korea ceased to be a main topic with the signing of the Korean Armistice Agreement in July. Political instability in Iran, including the overthrow of Prime Minister Mohammed Mosaddegh in August, and its prospective impact on oil exports also were heavily covered.

Part 6: Current Intelligence Bulletin 1 January-31 December 1954
The dominant issue this year was the volatile situation in Indochina. The French began their withdrawal following their decisive defeat by the Vietnamese Communists (or Viet Minh) at the battle of Dien Bien Phu in May. That summer at the Geneva Conference, the international community

A 1951 brochure for a sale of horses from Peter Licavoli's Grace Ranch Chauncey Holt asserts this ranch that was very near Tucson Arizona was a CIA training facility for overthrow activities. He provides records of B-52's and ammunition being bought and sold and he reports flying C-47's with military cargo into nations for the CIA., Holt asserts a souped up Oldsmobile was bought in Arizona and driven to Dealey Plaza. A pickup truck was also acquired and made a stop by "the strip club" in Dallas. Selling off the betting horses freed up the operators of the ranch for CIA activities

Dear Marvin:

The IRS is still after Pete and I am badly in need of information which I believe you may have in your files. They are looking into Southwest Aircraft Corporation and Military Armaments and Advisors Co. You were intimately involved in these companies and probably know the details better than anyone else.

These are:

1. Documents relating the Rillito Downs matter, including bank records, cancelled checks, deposits etc.:

2. Documents relating to Southwest Aircraft Corp., including bank records, cancelled checks, deposits etc. Note: they are also asking for end-use certificates);

3. Documents relating to Military Armaments and Advisors Co., including bank records, cancelled checks, deposits etc. Note: they are ~~also~~ Also asking for end-use certificates);

Gather up everything that you can find and fly into Tucson. The usual security precautions will be arranged.

Very truly yours,

Victor Tronolone

Accountant for Peter Licavoli

P.S. They are really interested in the salvaged B-52 project and are hinting that it was illegal. I know you have the costs on that project so be sure you get those to me. Also, any legal documents regarding the bid and purchase.

Letter from Pete Licavoli's accountant Victor Tronolone to Chauncey Holt.

It seems odd that both the race horses and pursuit planes (Pursuit P-40, P-51 etc.,) and later designated Fighers F-86 both of which my father flew were the Red Devils and race horses. In one case even a pickup truck.

YOKOTA AIR BASE, Japan -- The Cold War is an amorphous event that historians date variously as having started at the end of WWII, from the president's [President Truman's] articulation of the policy of "containment" in 1947, during the Berlin Airlift in 1948-49, or myriad other turning points in that epic struggle between the United States and the Soviet Union.

The Korean War should probably be lumped into the Cold War as well, though when examining Yokota's history it is worth analyzing Korea as a distinct event. At the other end of the spectrum the Cold War concluded in 1991 with the opening of the Berlin Wall, but at Yokota the Vietnam War was so dominant that it marked an end, or at least a pause in typical Cold War activities.

Therefore, this article shall periodize Yokota's Cold War era as the thirteen years between 1952 (about half-way through the Korean War) through 1964 when the Vietnam War was ramping up.

The variety of missions and aircraft that called the base home during this timeframe is almost overwhelming, and for those stationed at Yokota during the 1950s and into the mid-1960s the ever-looming threat of a conventional or nuclear attack was very real.

After all, Russia -- at that time the Soviet Union -- is Japan's closest neighbor, and combined with the establishment of communist China in 1949 and the aggression of North Korean toward South Korea in 1950 showed that Japan was surrounded by hostile states.

As a result during the 1950s and into the early 1960s, before the Japan Air Self Defense Force (JASDF) was fully operational, the US Air Force provided for Japan's air defense with various types of fighter jets and early warning radar systems.

As we learned in the previous article fighters from the 35th Fighter-Interceptor Wing (35 FIW) were stationed at Yokota for about three months prior to the Korean War, only to be rapidly replaced by heavy bombers for the duration of that conflict.

For a little over a year following the Korean War armistice Yokota remained almost exclusively a B-29 base. However, in August 1954 the mission changed radically with the return of the 35 FIW and three fighter squadrons.

Now flying North American F-86D "Sabres," [Jim Donegan] these squadrons were part of a larger defense network with operations out of Air Force bases from Hokkaido in the north to Kyushu in the west. 35 FIW remained at Yokota until 1 October 1957 when it was inactivated.

The air defense mission was scaled back but continued under the 40th Fighter-Interceptor Squadron "*Red Devils*" that upgraded to F-102 Delta Daggers in 1960, and the unit was a mainstay at Yokota until 1965 when that mission was fully handed off to JASDF.

Perhaps symbolic of Yokota and the F-102's place in the Cold War, Japanese filmmakers from Toho Movie Corporation came to the base in April 1961 and filmed the jets for the monster movie Mothra. The final cut the movie only showed footage of JASDF F-86s, but it is important to note that the F-102s were originally going to play a large effort in the battle against Mothra as it devastated Tokyo.

Air defense was just one piece of the Cold War puzzle at Yokota. Along with the fighters in 1954 came the 6007th Composite Reconnaissance Group which flew RB-57A Canberras into Soviet and Chinese airspace on highly sensitive photographic missions.

This kind of important work continued at Yokota well into the 1960s under the 67th Tactical Recon Wing and other organizations, the story of which can found in the excellent history Asia from Above.

Perhaps most significantly, the Strategic Air Command or SAC -- America's dominant symbol of the Cold War -- made its appearance at the base in the mid-1950s when it established Detachment 1 of the 3rd Air Division to handle B-50, B-36, B-47, and B-52 bomber deployments to Yokota. https://www.yokota.af.mil/News/Article/774050/yokota-history-part-4-yokota-and-the-cold-war-1952-64/

🚀 The 509th Bomb Group: Atomic Origins

- **Formed in 1944**, the 509th Composite Group was a specially trained unit of the U.S. Army Air Forces tasked with delivering atomic weapons.
- It operated **Silverplate B-29 Superfortresses**, modified to carry nuclear bombs.
- Under **Col. Paul Tibbets**, the group executed the **atomic bombings of Hiroshima (Aug 6, 1945)** and **Nagasaki (Aug 9, 1945)**-the only combat use of nuclear weapons in history.

🌵 Postwar Transition: From Tinian to Roswell

- After WWII, the 509th returned stateside and was stationed at **Roswell Army Air Field (RAAF), New Mexico**, starting in **November 1945**.
- It became part of the newly formed **Strategic Air Command (SAC)**, serving as the **nucleus of America's atomic strike force** during the early Cold War.

👽 Roswell Incident: The UFO Connection

- In **July 1947**, Roswell became the epicenter of UFO speculation when debris was recovered from a nearby ranch.
- The **509th Bomb Group was the unit that issued the original press release** claiming they had recovered a "flying disc"-a statement that was quickly retracted and replaced with the explanation of a weather balloon.
- The fact that the **509th was the only unit in the world equipped with atomic bombs** at the time added fuel to conspiracy theories.

🔗 The Link: Nuclear Power, Secrecy, and Speculation

- The 509th's **unique role in nuclear warfare**, its **elite status**, and its **location at Roswell** during the infamous 1947 incident create a compelling narrative arc.

Absolutely, Ed-this is one of those fascinating historical threads that ties together pivotal moments in military history, nuclear warfare, and even UFO lore. Here's how the 509th Bomb Group connects the atomic bombings of Japan and Roswell:

Days before Holt died Voice Over the off screen TV interviewer of Holt gave this interview

VO: Chauncey Holt continued his association with the CIA during the 1960's and 1970's. He played a role in covert operations in Brazil, Laos and Chile. At the same time Holt maintained his close friendship and business interests with mafia boss Peter Licavoli until the mobster's death in 1984. Holt also continued to be deeply involved through the years with attorney Frank Belcher with whom he maintained a joint banking account at the Bank of America in Burbank, CA. Many of Holt's CIA contract agent "projects" were funded and funneled through this special account.

In 1975 the CIA began to purge rogue contract agents, aka "cowboys" from its employ. Some were forced into retirement, while others like Chauncey Holt ended up in prison. On January 2, 1976, Holt had written a letter to his old CIA ally William King Harvey apprising him of his recent indictment by a federal grand jury. Harvey responded by saying he could only offer "token assistance." Harvey did offer to send Chauncey some CIA documents that were about to be declassified. These records proved that Holt worked for the Clandestine Operations of the Central Intelligence Agency.

As recounted elsewhere, Operation Mongoose was revived and a number of contract agents, as well as the Cubans and gangsters like Gaincana, Licavoli, Roselli, Traficante and Rothman, who answered to Lansky, were involved in these attempts on Castro, many of which were not only ludicrous but bordered on lunacy.

On December 14, 1961, I [Chauncey Holt one of the trainyard hobos working for William King Harvey known as Mr H) attended a meeting at Bermuda Dunes Airport, a proprietary interest of the CIA, operated by Ray Ryan and an old time pilot by the name of Ernie Dunlevie. This was the only meeting I attended where most of the principals involved in the plot to assassinate Fidel Castro were present. Those present included William King Harvey, Peter Licavoli, Sam Gaincana, Johnny Roselli, Ray Ryan and Frank Hayden. Ernie Dunlevie was not present. I acted as the secretary and I still have the handwritten notes of that meeting.

It was decided that the ZR/RIFLE program would be applied to Cuba. There would be maximum security and non- attributability in regard to this project. The term "Kubark" and "Kutube/D Search" were assigned to the plan. We were advised not to us "AM" but rather "Mongoose" when referring to this project. Operations would be implemented through word of mouth, person to person, singleton ops and nothing on paper. We were assured that phony 201 files would be inserted in the central registry and backdated. I was assigned Q J/ lose and was instructed to prepare the necessary forged documents. All this would be implemented through Special Group (augmented), coded Task 33.

9 Months after the meeting with William King Harvey and Sam Giacana and John Roselli these same crowd will kill Marilyn Monroe. Monroe was going to reveal the ongoing CIA overthrows operation and thus she was silenced. A member of the Greek Community in Chicago learned of the operation from their own mouths and also was silenced. Johnny Roselli is a very central figured named by others and in declassified CIA and FBI documents in the national archives.

Roselli agree to introduce Maheu to "Sam Gold." At this point the Report refers to a memorandum prepared by Edwards, dated 14 May 1962, re money not paid to ...

Our contract agents in Miami and in Los Angel have been assured by me that no reference to this operation appears in our central files. I strongly urged that my recommendations be passed on to Lansdale that he excise the phrase in question from all copies of this memorandum, including those disseminated to State. Defense and USIA. Shortly thereafter, Lansdale called back and left the message that he agreed and that he had done so.
